Gowns

Miss Hermes said that some definite steps would have to be taken about the wearing of gowns at lectures. She said that the measure had been decided by a very large majority only a year ago, and that a Council Regulation made at the request of the students could not possibly be repealed, and that further it must be kept properly. That therefore the following measure would be taken – a fine of 2/6 from each student who attended a lecture or a public function without a gown; that the proceeds, if any, would be given to the Bursary [Fund].
