The MSc Biological Sciences by Research programme fall under the Postgraduate Research regulations (see appendix 1) as of 2016/17

**Start Date:** Standard September start date only

**Duration:** One year full-time / two years part-time.

**Structure of a Masters by Research programme**

**Dissertation**

- The dissertation carries 180 credits.
- A word limit of 20,000 words has been set by the School of Biological Sciences for the dissertation. This includes references, footnotes and endnotes but excludes the bibliography and appendices etc.
- Students have the option to present in a form other than a monograph (as per the main PGR regulations).
- The dissertation should:
  (a) synthesise knowledge from the subject or discipline and apply it to suitable research problems, hypotheses or research questions;
  (b) provide a critical discussion of relevant major theories, debates and concepts;
  (c) demonstrate the capacity to design and carry out an independent research project using appropriate research methods and utilizing suitable skills and techniques;
  (d) undertake a clear analysis of the results of the project, and show informed and critical use of theories and concepts to interrogate these results/findings;
  (e) provide a reasoned and coherent account of the main findings and their significance;
  (f) display good presentation and referencing skills.

**Research Methods Taught Components**

- There are taught components which must be passed by 50% overall in order to qualify for the award.
- The School of Biological Sciences will record the individual marks for the taught components but the outcome for the taught components will be recorded centrally as either ‘Pass’ / ‘Fail’.
- The students should be registered on this taught component on Banner with Grade Mode ‘D’
- An external examiner is not required for this component (as it is not credit-bearing and is recorded centrally as ‘Pass’ / ‘Fail’.)
Examination of the Dissertation

Prior to Submission

- It is recommended that the School of Biological Sciences sends the following deadline reminders (in line with the email Student Administration sends to Masters by Research students in other departments):
  - Approx. 6 months prior to deadline – clarification of deadline to students and departments
  - 2 months prior to deadline – reminder to students who have not submitted their entry form (Student Administration will provide a list)
  - 1 month prior to deadline – deadline reminder to all students
- The Entry form for Masters by Research Examination should be completed and signed by the candidate, the supervisor and the Director of Graduate Studies and then submitted to Royal Holloway Student Administration (researchdegrees@royalholloway.ac.uk) two months before the submission of the dissertation.
- As part of the Entry form, two examiners need to be nominated - one internal examiner (who may have acted as the dissertation supervisor for the student) and one external examiner.
- Student Administration will seek approval of the nominated examiners by the Faculty Dean on behalf of the CBEEC and issue the invitations to examine:
  - Alongside the invitation to examine the dissertation, the examiners will be sent guidance on the examination process and a link to the College regulations.
  - For dissertation examiners who are not Royal Holloway members of staff, the examining fee for 2016/17 is £125, paid by Student Administration.

Submission of Dissertation

- The dissertation should be submitted by the end of August (see timetable for exact deadline set by School of Biological Sciences).
- Two securely bound copies of the dissertation should be submitted to the Postgraduate Administrator in the School of Biological Sciences.
- In addition, an electronic copy of the dissertation should be emailed to researchdegrees@royalholloway.ac.uk (except in cases where agreement is in place for a restriction of access for reasons of confidentiality, commercial sensitivity or patents).
- A Declaration of Number of Words form, signed by the candidate and the supervisor, should be submitted with the electronic copy of the dissertation to researchdegrees@royalholloway.ac.uk.
- Details of the required format of the dissertation can be found in the Guidance on the Format of the Masters by Research Dissertation.

Dispatch of Dissertation

- The dissertation will be dispatched by the Postgraduate Administrator in the School of Biological Sciences to the examiners once they have both accepted the invitation to examine.
- The following paperwork will be included with the dissertation:
  - a copy of the Declaration of Number of Words
  - Preliminary Report form - to be completed by each examiner separately before they confer on the outcome (if no viva required) / before the viva (if a viva is required). These reports will not be made available to the students unless specifically requested by the examiners.
  - Final Joint Report form - to be completed and signed by both examiners at the end of the assessment process to indicate the outcome and to explain how the outcome has been reached.
  - List of Amendments form – to be completed and signed by both examiners if the outcome is ‘Pass subject to minor amendments’
  - The candidate will receive a copy of the Final Joint Report with their Award letter at the end of the process.
Assessment of Dissertation

- It is expected that an oral examination would not normally be required for a Masters by Research. However, the examiners do have the option to request this if deemed necessary.
- Examiners are asked to return their reports on the student’s dissertation to Student Administration within 6 weeks of the dissertation being dispatched to them.
- If an oral examination is not required, the examiners should ensure they complete their Preliminary Report and send to researchdegrees@royalholloway.ac.uk prior to conferring with their co-examiner about the outcome.
- If a viva is required:
  - It is the responsibility of the supervisor to organise the viva
  - it is essential that Student Administration is informed of the date of the viva as soon as possible so that they can ensure the Preliminary Reports are received prior to the viva
  - the candidate must bring a copy of the dissertation with them which is identical in format to the dissertation submitted
  - an audio recording must be made of the viva (in addition, an Independent Chair is required by the School of Management)
- The following outcomes are available to the examiners:
  - Pass
  - Pass subject to minor corrections (to be submitted within 6 weeks of the official outcome)
  - Resubmit within 6 months
  - Fail (required level not reached and candidate is not permitted to resubmit)
- The outcome should be indicated and explained on the Final Joint Report form. If the candidate has passed subject to minor corrections, the List of Amendments should also be completed.
- The forms should be signed by both examiners and submitted to Student Administration for processing.

Processing of Dissertation Outcome

- If the outcome is ‘pass’, Student Administration will:
  - ensure that confirmation has been received from the Director of Graduate Studies that any compulsory taught components have been passed.
  - send the outcome and the examiners’ reports first to the Director of Graduate Studies and then to the Dean of Faculty to approve on behalf of the CBBEC
  - process the outcome on Banner once it has been approved
  - send a copy of the award letter and all the reports, including the Preliminary Reports, to the supervisor (cc DoGS and PGR Administrator)
- If the outcome is ‘pass subject to minor corrections’, Student Administration will:
  - contact the candidate (cc supervisor, DoGS and PGR Administrator) to provide them with the list of required corrections and make them aware of their corrections deadline (6 weeks from the date of this official notification of the outcome).
  - contact the examiner who has been nominated to check the corrections to inform them of the process and to ask them to submit a ‘Satisfactory Completion of Amendments’ form to researchdegrees@royalholloway.ac.uk once they have been checked.
  - The candidate should liaise directly with the examiner nominated to check the corrections to ascertain how they would like to receive the corrections.
  - On receipt of the signed off ‘Satisfactory Completion of Amendments’ form, Student Administration will process the award (see above)
  - If, after minor corrections, the dissertation still fails to meet the requirements of the Masters by Research degree, the examiners will normally recommend offering the candidate the option to resubmit the dissertation within 6 months for a second and final time (see below).
- If the outcome is ‘resubmission within 6 months’, Student Administration will:
o send the outcome and the examiners’ reports first to the Director of Graduate Studies and then to
the Dean of Faculty to approve on behalf of the CBBEC
o process the outcome on Banner
o send the resubmission letter with a copy of the examiners’ Final Joint Report to the candidate
o send a copy of the resubmission letter and all the reports, including the Preliminary Reports, to the
supervisor (cc DoGS and PGR Administrator)
o The candidate will have 6 months to resubmit from the date they are sent the resubmission letter.
o They will be billed a flat rate resubmission fee.

Resubmission of dissertation process

- Entry form: An Entry Form for Masters by Research Resubmission should be completed 2 months prior to
  the resubmission.
- Nomination of examiners: It is expected that normally the same examiners as the 1st submission will be
  nominated, in which case the examiners do not need to go through a re-approval process. However, if it is
  necessary to nominate new examiners, a section is provided on the Entry form to explain the reason for this
  and the new examiners’ details will be sent to the Dean to approve on behalf of the CBEEC.
- The following processes are the same as for the 1st submission:
  o Invitation of examiners
  o Resubmission of dissertation
  o Dispatch of dissertation
- Assessment of dissertation: Same as for the 1st submission except for the outcome options. A further
  resubmission is not permitted so the options are:
  o Pass
  o Pass subject to minor corrections (to be submitted within 6 weeks of the official outcome)
  o Fail
- Processing of outcome: Same as for the 1st submission (except that a further resubmission is not an option)

If you have queries about the Masters by Research Assessment process, please contact
researchdegrees@royalholloway.ac.uk.
