

Getting started: Logging-in and finding your courses

1. Open your web browser of choice and visit <http://moodle.royalholloway.ac.uk/>
2. Type your RHUL username e.g. umyl010, and your password. Then click on the orange arrow to **Login**.

If you have forgotten your username and/or password, please contact the IT Service Desk at itservicedesk@rhul.ac.uk or on 4321 (+44 (0)1784 414321 from off campus).

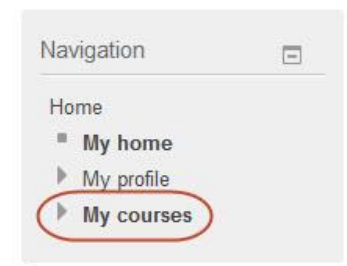

3. On the menu bar, click on the **My Courses** link.

4. To access a course, click on the **blue course title link** in the Course Overview listing.

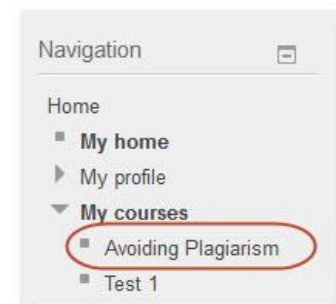

5. Alternatively, you can access a course by clicking on the My Courses link in the left-hand side, under the **Navigation** block. You can expand or collapse a section in the **Navigation** block by clicking on the **arrow head** or on the title of the section.

6. Click on the **My Courses** link in the Navigation block to expand and display your list of courses.

To access a course, click on the link to the course, e.g. **ML2205-201516**

Note: The navigation block is displayed on every course page and you can use it to jump between your courses.

You may not see a full list of all your expected courses in your Moodle My Courses list. This does not necessarily mean that your course registrations are incorrect. There are two possible reasons:

- Tutors make courses visible to Students only when they are ready
- Not all courses use Moodle

Use the Study tab in [Campus Connect](#) to check the courses you are registered for, or contact your department for information on their use of Moodle.
