*Thesis Title:* \_\_\_\_\_

Please write your Preliminary Report below. It should be completed after reading the thesis but before conferring with your co-examiner. It should identify particular areas that you believe need to be discussed with your co-examiner before a final decision can be reached and, if possible, a tentative recommendation, based on the thesis, for the result of the examination. Please sign and date the bottom of this page. Please note by signing the form you are confirming that your preliminary report was written prior to discussion with your co-examiner and that it is your independent verdict on the resubmitted thesis. If the form is submitted personally by you via email, please note this is also taken as confirmation of the above. Additional sheets may be attached if required. The form should be submitted to Royal Holloway Student Administration prior to the oral examination.
