HEALTH AND SAFETY POLICY & ORGANISATION AND ARRANGEMENTS FOR CARRYING OUT THE POLICY

SECTION 1 – POLICY STATEMENT

1) The Department sets out in this document its commitment for the provision of a safe and healthy environment and working conditions for staff and students, as well as to visitors and contractors working on its premises or in connection with its departmental activities.

2) The Department attaches great importance to the proper management of health, safety and fire related risks (hereafter referred to as ‘Health and Safety’). This importance is reflected in the pro-active approach adopted to the management of health and safety and the implementation of College Policies and Procedures, Departmental Codes of Safe Working Practice and the detailed arrangements established in this Health and Safety Policy. It is through such arrangements that the positive effects of this Policy and the identification of any further action required will be established.

3) The Department’s health and safety duties will be conducted in accordance with the requirements of the relevant statutory provisions and College Policies and Procedures, and in doing so the resources necessary to discharge such obligations will be made available. Staff, students, contractors and visitors to the Department must meet their own legal responsibilities and not do anything that may prejudice the health, safety and welfare of themselves or others and co-operate with the Head of Department to achieve the objectives contained in this Policy, College Policies and Procedures and Departmental Codes of Safe Working Practice.

4) In establishing this positive and progressive approach to health and safety, the Department recognises the need for the support of staff and students and for them to be consulted and involved, particularly where allocated specific health and safety functions.

5) Information, instruction, training and support will be provided by the college to those charged with specific responsibilities under Section 2, subsections 1) and 2) below, and any other person charged with specific health and safety duties (for example, Manual Handling Assessors, Fire Marshals, etc.) in accordance with specific training courses offered by the college.
