Faculty of Management and Economics
Postgraduate Studies
Royal Holloway is widely recognised on the world stage as one of the UK’s leading teaching and research universities. One of the larger colleges of the University of London, we are strong across the sciences, social sciences, arts and humanities. Our 8,500 students work with internationally renowned scholars in 20 academic departments. The University of London degree gained by our talented, high-achieving graduates is valued the world over.

As a cosmopolitan community, with students from 130 countries, we focus on the support and development of the individual. Our friendly campus, just 19 miles west of central London, provides a unique environment for university study. Campus life revolves around the Students’ Union, which runs over 100 societies and sports clubs, and we are recognised as London’s best sporting college.

Welcome to the Faculty of Management & Economics

Our programmes are designed to provide you with the theory, knowledge and associated skills and expertise to help you progress your career.

Our academics are internationally renowned researchers, with strong academic backgrounds and experience of industry from all over the world. As such, we offer a truly international learning experience – many of our programmes draw upon the Faculty’s links with companies and institutions worldwide to offer programmes that reflect the global nature of modern business, finance and economics.

Both the School of Management’s MBA & MSc International Management programmes are accredited by the Association of MBA’s (AMBA). In addition to this the School is a member of several external organisations that responsibly advance and inspire management education.

Since 1995 the Department of Economics have developed a strong reputation as a world class centre of research and teaching. Staff in the department have been recruited from pre-eminent economics departments in the UK and internationally and also have strong links with the banking and finance sectors. 80% of the Department’s research was ranked as world-leading or internationally excellent in the 2008 RAE. It is ranked third in London and its researchers are the third highest performing in the country based on citations.
Economics and Finance
- MSc Computational Finance
- MSc Economics
- MSc Finance
- MSc Policy Economics

Management
- MA Consumption, Culture and Marketing
- MA Marketing
- MSc Business Information Systems
- MSc Entrepreneurship
- MSc International Accounting
- MSc International Human Resource Management
- MSc International Management
- MSc International Supply Chain Management
- MSc Management and Organisations
- MSc Project Management
- MSc Sustainability & Management
- MBA International Management

Research programmes
- PhD in Economics
- PhD in Management
Postgraduate students often find studying full-time whilst looking for a job challenging. We strongly advise you to begin your job application preparation at the beginning of the academic year. You should attend appropriate activities, events and networks to utilise the services and facilities available. Meeting potential employers at these events and honing your networking skills will greatly increase your success in finding a job.

www.royalholloway.ac.uk/careers/students/apply/findingemployment

Employer events and career workshops
Our autumn and spring programmes include a variety of employer presentations, skills sessions, fairs and alumni events. We recommend that you stay up-to-date with these events and full details can be found at www.royalholloway.ac.uk/careers and on ‘Economics@Work’ at www.royalholloway.ac.uk/economics/yourfuturecareer/

Who employed our graduates?

- Bloomberg
- Deloitte
- EDF Energy
- Barclays
- Credit Suisse
- Ernst and Young
- Enterprise Rent-A-Car
- KPMG
- Ministry of Defence
- Citigroup
- Porsche Consultancy
- Samsung
- Accenture
- Frontier Economics
- Mercedes Benz
- Whirlpool
- Pricewaterhouse Coopers
- Telenor
- British Paralympics Association
- Bank of Beijing
- China Steel Company

Previous employer events on campus

- Centrica trading game
- Procter & Gamble
- Ernst & Young interview and assessment centre workshop
- College of Law
- Management Futures: Internships and Beyond
- Routes into Teaching
- Opportunities in the EU
- Ketchum Pleon (PR)
- Lidl presentation
- Psychometric Assessments – a PwC skills session
- Travel & Tourism from Mark Warner
- Getting into HR
International students
The on-campus Careers Centre runs a specialist programme of events aimed at non-EU students, including:

• UK immigration talks
• International Employer Web-chats and presentations
• One to one careers coaching
• International Futures course in London
• Extensive online resources – from hand outs to podcasts
• Specialist international student careers website
• International JobOnline vacancies website

For further information about careers in management, economics and finance at Royal Holloway please visit: www.royalholloway.ac.uk/careersmanagement or www.royalholloway.ac.uk/economics/yourfuturecareer

Careers workshops:
• Finance careers: The beginner’s guide
• Using social media for job hunting
• CVs; Applications; Interviews
• Practice assessment centres
• Finding internships and work experience
• Writing a personal statement for postgraduate study
• Making the most of the recruitment fair
• What to do if you don’t know what to do
Maximise career opportunities whilst you are here

Our Alumni Relations office caters for all needs by arranging both high profile business events and various social activities to help you expand your networks. These activities provide you with the opportunity to engage with a range of employers, meet our alumni, and develop your interpersonal and networking skills.

Past events have included: Marketing Insights, Internships and Beyond, Getting into HR, Investment Banking Insights, Professional Qualifications Tasters including CIMA and CIM, with speakers from Barclays, IBM, Bank of America, United Nations, Christie’s Auction House, Telefonica, JP Morgan and Saatchi & Saatchi.

To ensure you maximise these opportunities, subscribe to our social networks when you enrol at Royal Holloway.

Our Alumni Association aims to support you now, and throughout your future career. Once you graduate, you will be joining a truly global network of Royal Holloway Alumni, connecting you with students from over 140 countries. Whether you are in China or Colombia, Texas or Taiwan, our international network of alumni associations fosters the friendly Royal Holloway community spirit, through professional networking events or informal activities.

What our graduates say

“The School of Management offers a number of Masters courses, but International Management was the one that enabled me to build upon my finance knowledge by taking more courses in this area. In particular, the Global Financial Markets module, which covered portfolio investments, is very relevant to my current job.”
Zhiwei Jiang (MSc International Management), Research Associate at Bank of China International

“The tutors have an “open door” policy; it was reassuring to know that support was available if you needed it. The dissertation was a great opportunity to focus on a specific area of study in greater depth, and I remain in contact with my supervisor. Also, the course is very international and I am still in touch with friends from many other countries. It is possible to obtain a great network from studying there.”
James Adams (MSc Financial and Industrial Economics), Senior Manager, Treasury Consulting Section, Deloitte

“International Accounting opens doors in every kind of business, whether that is becoming a qualified accountant, preparing you to become a partner in an accounting firm, pursuing a career in finance or corporate management, working in government, or even setting up your own business.”
Fan Deng (MSc International Accounting), Associate at Deloitte

“Although relatively small, the Economics department is extremely well diversified and provides opportunities for academic excellence. I found the academics to be helpful and knowledgeable; the quality of supervision was excellent. The research seminars were helpful in expanding my understanding beyond my field of study, something which although important, is often easily forgotten by economists eagerly focusing on their own research. The knowledge and skills I obtained remain invaluable in my work.”
Darko Hajdukovic, (PhD Economics) Primary Markets team at London Stock Exchange Group

“The group work assignments in particular teach you how to effectively communicate your ideas, take on board what others think and persuade them of your way of thinking. You come across similar situations in your working life.”
Sharon Yuan (MA Asia Pacific Business), Account Manager at MetaDesign

How our alumni can help your career
Department of Economics

MSc Computational Finance

Fast facts

- Number of places: 10
- Programme duration: 1 year full-time, September to September, or with additional 1 year in industry
- Study programme: 8-10 courses (depending on credit value), pre-sessional course in mathematics and statistics, dissertation and research methods course
- Assessment: Coursework, examinations and dissertation / individual project
- Entry requirements: Good UK upper second class honours degree (2:1) or equivalent in Computer Science, Economics, Mathematics, Physics, or other subjects that include a strong element of both mathematics and computing.
- Fees (2015-16): UK/EU: £7,900 (plus £1,580 for the year in industry) International: £15,500 (plus £1,580 for the year in industry)

Programme structure

Optional two week pre-sessional course in mathematics and statistics

Core courses:
- Data Analysis
- Programming for Data Analysis
- Foundations of Finance
- Database Systems
- Investment Portfolio Management

This programme provides you with:
- A set of skills that are in short supply and high demand; Big Data is now part of every sector and function of the global economy, in particular of financial services and insurance. Planning and strategic decision-making processes rely on large pools of data that need to be captured, aggregated, stored, and analysed.
- Knowledge of the working of financial markets and their role in the context of global economy.
- Knowledge of key ideas, principles, and methods of machine learning and their applications in finance.
- Modern quantitative finance and computational methods for financial modelling, in particular the ability to work with software packages such as MATLAB and R, relational databases (SQL), non-relational databases (mongodb), as well as with Hadoop/pig scripting and other big data manipulation techniques.
- The opportunity to choose options among an exciting range of topics in Computer Science, Economics, Information Security, Management and Mathematics.
- Courses which have been informed by industry connections.
- A chance to be involved in a rich programme of seminars and guest lectures which are an integral part of the programme.

Elective courses including (but not limited to):
- Object-oriented programming
- Computer learning
- Methods of computational finance
- Internet and web technologies
- Software verification
- On-line machine learning
- Large scale data storage and processing
- Business intelligence
- Computational optimisation
- Advanced data communications
- Individual Project / Dissertation

Management & Economics
This programme provides you with:

- Rigorous training in the analysis of economics, including quantitative techniques, advanced economic theory and research methods.
- The tools of the professional economist and ensures you are ready for your chosen career path, whether in government, the banking and financial services sector or further research in economics and finance.
- An excellent opportunity to get a strong grounding in core areas of Economics and to specialise your knowledge further through the optional courses on offer.
- Teaching from academics who produce world leading research. In the 2008 Research Assessment Exercise we were ranked among the top 10 Economics Departments in the UK.
- The opportunity to attend a two week pre-sessional quantitative methods course to ensure you are in a good position to start this challenging Masters course.

Programme Director – Professor Manolis Galenianos
manolis.galenianos@royalholloway.ac.uk
Postgraduate Programmes Administrator
marie.webb@royalholloway.ac.uk
T: +44 (0)1784 443891

Programme structure
Two week pre-sessional course in mathematics and statistics

Core courses:
- Econometrics
- Mathematical Methods
- Microeconomics
- Macroeconomics
- Dissertation
- Course in dissertation preparation, research methods and Stata

Elective courses:
- Decision Theory and Behaviour
- Industrial Economics
- Advanced Topics in Microeconomics
- Origins of the Financial Crisis
- Labour Economics
- Financial Econometrics
- Evaluation Economics
- Public Economics
This programme provides you with:

- An opportunity to study a portfolio of courses in the first year designed to bring you up to the entry standard for the Master’s degree; ideal if you have graduated from disciplines other than Economics or if you have some background in Economics and wish to deepen your understanding of the discipline. Subject to performance and progression pre-requisites, at the end of the first year you will progress to the 1 year long MSc in Economics, or to other related MSc programmes.

- The relatively small number of students on the course ensures that you will gain a strong sense of group-identity and enjoy a close contact with the academic staff of the department.

- The chance to be taught by academics who produce world leading research. In the 2008 Research Assessment Exercise we were ranked among the top 10 Economics Departments in the UK.

Research Programmes

**PhD in Economics**

**PhD in Management**

**Research Interests**
The faculty has a well-respected staff group, drawn from around the world, and who have built strong international research connections and partnerships.

The Department of Economics produces top research across the main fields of the discipline; microeconomics, macroeconomics and econometrics, and has a particular strength in applied work. We welcome applications from all fields of economics.

The School of Management produces high level research:
- Accounting, Finance and Economics
- Marketing
- Organisation Studies and Human Resource Management
- Strategy, International Business and Entrepreneurship
- Technology and Information Management

**Interaction**
There are plenty of opportunities for interaction and collaboration with academic staff. Each student works with a team of two supervisors with complementary expertise. Both departments have highly regarded specialists in their field, thereby ensuring a high level of interaction between research students and academic staff.

**Seminar Activities**
We offer a stimulating programme of research seminars. All research students and staff have the opportunity to present their ideas at these seminars. We also have research seminars with invited external speakers visiting from around the world.

**Training**
Students obtain generic research skills training to aid them with their research. In addition students benefit from advanced PhD level training, and training on key research methods and software in later years.

**PhD Conference**
Every spring, both departments organise their own in-house PhD Conference with invited speakers and visiting PhD students from other universities. This offers our students an opportunity to present their work in a familiar environment and to obtain feedback from colleagues outside the supervisory team.

**Facilities**
PhD students within the faculty are provided with dedicated facilities for carrying out their research, including study spaces, computer labs and specialist software. Research students are provided with funding to support their research (such as conference attendance or further specialist training).

Admissions requirements
All applicants must satisfy the general postgraduate admissions requirements and also those of the programme which they wish to pursue. Our MSc Business Information Systems and MSc International Management have different entry requirements and the MBA International Management has different language requirements (see below).

Our Research degrees require at least an upper second class UK honours degree or equivalent.

English language qualifications
For students whose first language is not English, with qualification from non-English speaking institutions, confirmation of English language proficiency is required:

• IELTS score of 6.5 overall with grade 6.5 in writing, or
• TOEFL Internet based iBT: 92 overall with 25 in writing
• Cambridge Certificate of Proficiency in English: at least a C pass
• Pearson test in English 61 overall with 61 in writing

Please contact Postgraduate Admissions or the Programme Director for your proposed programme if you are in any doubt about the suitability of your qualifications and experience.

Our MBA programme requires:

• IELTS score of 7.0 overall, with grade 6.0 in writing
• TOEFL Internet-based (iBT): 100 overall with 24 in writing

Pre-sessional English Language Programme
This programme is open to all non-native English speaking undergraduate and visiting students who do not yet have the level of English required for their chosen programme. The Pre-sessional English Language Programme gives students the opportunity to develop their academic language skills and to familiarise themselves with the environment at Royal Holloway before beginning their studies.

The programmes last for 12, 8 or 4 weeks, depending on your current level of English and the level required for your programme.

At the end of the Pre-sessional English Programme, students do not need to re-take an external English language test, such as IELTS.

A separate tuition fee is charged and accommodation is available on campus.

Find out more: www.royalholloway.ac.uk/pelp
Part-time study
Some postgraduate programmes may be studied on a part-time basis. The Postgraduate Administrator responsible for the programme concerned should be contacted to discuss this option.

Instructions for completing the online application form
Choose your degree and subject from the drop-down lists, and fill in your name, date of birth and email details. We will then send you an email to complete your application, you need to re-enter your date of birth to confirm your identity.

Instructions for completing the paper application form
If you prefer to submit an application on paper, instructions for completing it will be enclosed with the form when it is sent to you. In addition to filling in the application form, you also need to provide supporting documentation (see the ‘Supporting documentation’ section above).

Contact us
The Admissions Office acts as the first point of contact for all applicants. Whether assisting prospective applicants, or processing and communicating decisions to applicants, the team is happy to advise at any point during the academic cycle.
