</table>
| Regulation 10 | Monitoring exposure at the workplace | ▪ Respiratory Protective equipment (including frequency and record keeping)  
▪ Cleaning protective equipment  
▪ Accommodation for, and checking of, personal protective equipment |
| Regulation 11 | Health Surveillance | ▪ Objectives of health surveillance  
▪ Suitable health surveillance  
▪ Person who carries out health surveillance procedures  
▪ When health surveillance is appropriate  
▪ Detection of and adverse health effect or identifiable disease  
▪ Continuing health surveillance after exposure has ceased  
▪ Facilities for health surveillance  
▪ Health records |
| Regulation 12 | Information, instruction and training for persons who may be exposed to substances hazardous to health | ▪ Suitable and sufficient information, instruction and training  
▪ Updating information  
▪ Instruction and training  
▪ Records of training  
▪ Identifying the contents of containers and pipes |
| Regulation 13 | Arrangements to deal with accidents, incidents and emergencies | - Emergency procedures relating to substances hazardous to health  
- Incidents involving carcinogens and mutagens  
- Suitable warning and communication systems  
- Making procedures available to emergency services  
- Displaying emergency procedures  
- Employer’s actions during an emergency |
| Regulation 14 | Provisions relating to certain fumigations |
| Regulation 15 | Exemption certificates |
| Regulation 16 | Exemptions relating to the Ministry of Defence, etc |
| Regulation 17 | Extension outside Great Britain |
| Regulation 18 | Revocation and savings |
| Regulation 19 | Extension of meaning of work |
| Regulation 20 | Modification of Section 3(2) of the 1974 Act |
| Regulation 21 | Defence |
| Schedule 1 | Other substances and processes to which the definition of ‘carcinogen’ relates | - List of other substances |
| Schedule 2 | Prohibition of certain substances hazardous to health for certain purposes | - Table of substances |
| Schedule 2A | Principles of good practice for control of exposure to substances hazardous to health | - The principles of good practice with guidance on application of each |
| Schedule 3 | Additional provisions relating to work with biological agents | - Classification of biological agents  
- Special control measures for laboratories, animal rooms and industrial processes  
- List of employees exposed to certain biological agents  
- Notification of use of biological agents  
- Notification of consignment of biological agents |

- Containment measures in tables
- Biohazard sign
- Table of processes which apply
- Table of substances and processes which apply
- Table of substances where medical surveillance applies
- List of legislation
- Persons to whom notifications must be made
- Information to be given in advance notice of fumigations
- Interpretation and classification of carcinogens
- Assessment of the risk to health created by work involving substances hazardous to health (regulation 6)
- Prevention or control of exposure (regulation 7)
- Monitoring exposure in the workplace (regulation 10)
- Health surveillance (regulation 11)
- Information, instruction and training (regulation 12)
- Classification of biological agents
- Special control measures for laboratories, animal rooms and industrial processes
### List of Employees Exposed to Certain Biological Agents
- Notification of use of biological agents
- Notification of consignment of biological agents
- Containment measures in tables
- Biohazard sign

### Appendix 3: Control of Substances that Cause Occupational Asthma
- Assessment of the risk to health created by work involving substances hazardous to health (regulation 6)
- Prevention or control of exposure (regulation 7)
- Health surveillance (regulation 11)
- Information, instruction and training (regulation 12)
