

Statutory Fire System Testing Information for Building Users

The Fire Regulations require the College to test the Fire Alarm Systems across the Estate on a **WEEKLY** basis. Please find below the actual testing times for each building for your information (as per **21.09.2009**).

To minimise disruption the tests will be for a maximum of 30 seconds but shorter in most cases and we have responded to feedback to date in shaping the schedule. Please continue to bring any exceptional circumstances or issues as soon as possible to Stephan Scheiner, Compliance Manager, Ext. 4637 (email:stephan.scheiner@rhul.ac.uk).
