Introduction

This booklet outlines all the courses you will study during your degree here in the School of Management.

All courses are Core, Core Pass Required or Optional. Core courses have to be taken in order to complete the degree programme. Optional courses are those you can choose within your degree. Students taking a Specialism degree, e.g. Management with Accounting have Core Pass Required courses. These are listed as Pathway in the grids. You must take and pass all your Core Pass Required to be awarded the degree.

Students who are taking degrees with other Departments, such as French and Management, should check with their other Department for their part of the degree

You should undertake a total of 120 credits per academic year. Courses ending in a 5 = 15 credits and ending in a 1 = 30 credits.

Please make sure that you refer to this booklet when looking at your options for the second and final years.

Please note that not all courses may be available due to resource constraints. The School of Management reserves the right to withdraw courses at a reasonable notice
