

Economics

Undergraduate Studies

ROYAL
HOLLOWAY
UNIVERSITY
OF LONDON

Welcome

Welcome to Economics in Action!

The Department of Economics offers three distinct and selective undergraduate degrees: Economics, Economics and Econometrics, and Financial and Business Economics. These courses are based on the most current knowledge in the field. They are directly applicable to your future career. We have designed them to match your career interests with the research profiles of our academics.

Within our research expertise in microeconomics, macroeconomics and econometrics, we entertain particular strengths in labour economics, development economics, behavioural economics and economic theory.

The Department of Economics has a diverse academic staff recruited from pre-eminent economics departments throughout the UK and internationally. Ranked in the top 10 for economics research in the UK (REF, 2014), this strength is reflected through real-world impact and the quality of our publications.

The best education is not just about studying models and methods for exams. We encourage you to discover how these models and methods of economics apply to the real world. That is where it matters! We approach the design of our courses with this in mind.

We believe Royal Holloway is the ideal place for you to prepare for a challenging and exciting future.

Yours,

Dr Michael Naef

Head of Department

Economics at Royal Holloway

Why choose Economics at Royal Holloway?

Economics is a rigorous and intellectually challenging subject. It is the subject of choice if you are seeking a career in business, financial institutions, and government. Managers need to know how markets work and how a business can prosper in its market environment. Policymakers need to consider the constraints imposed by economic factors, but also the limits to the market and the role of government intervention.

Our students are supported through their studies by an established network of academic and departmental staff. Our graduates leave university with excellent career prospects, as the market rewards the real knowledge and skills developed in a Royal Holloway economics degree.

- **Dual research and teaching focus.** Being part of a research-led department means you will learn from experts in their fields. With our staff being at the frontiers of their subjects, it guarantees high quality teaching, cutting edge material and a continuously evolving undergraduate programme.
- **Excellent careers prospects.** Our department has an excellent placement record. Realising that employers are interested in the skills you develop through student life as well as the academic knowledge you gain through your studies, we have introduced the new careers programme Economics@Work. This programme offers a series of employability workshops, events and guest speaker talks (including Royal Holloway alumni) who are able to provide you with advice, contacts and networking opportunities. We have also introduced short Employability modules to each year of study.
- **Campus environment.** At Royal Holloway we have a friendly community environment, where everyday interactions with students and staff from different departments and nationalities are the norm, adding to our cosmopolitan vibe. Having everything on your doorstep from your studies, friends, societies, sports and social life is one aspect that really sets us apart from other institutions of the University of London.

“They say the sky’s the limit, and the energy given off by the lecturers in the Economics department is constantly out of this world. Being a student who takes a strong interest in behavioural economics, I know the importance of surrounding myself with the right people, and being in an environment where I can thrive – Royal Holloway has provided both for me.”

Rashaine
BSc Economics & Mathematics

Choosing your degree

We offer three main single honours and four new integrated masters from 2021:

- BSc (Econ) Economics
- BSc (Econ) Economics and Econometrics
- BSc (Econ) Financial and Business Economics
- MSci Corporate Finance
- MSci Economics
- MSci Economics & Econometrics
- MSci Finance

These degrees provide an excellent background for starting a career or for further study. There is a common set of mandatory modules that provide training in theoretical and quantitative economic analysis. Financial and Business Economics students specialise in the areas of financial markets and industrial economics.

Our first year modules for our main courses include Principles of economics, Applied economics and policy and Data skills for economist. Courses become more specialised in the second and third years and you will have freedom to choose optional modules to suit your interests.

A number of our degrees offer exemptions by CIMA (Chartered Institute of Management Accountants).

For details of current module options and our entry requirements, please see our website.

Studying here

Departmental support

We provide additional tuition sessions for all the core modules, which are held in small groups and are arranged by demand. Studying here, you are also assigned a personal advisor from among our academics who will provide you with extra academic support and guidance throughout your studies. As students join us with varying mathematical backgrounds, we also run additional maths tutorials on a regular basis for the modules containing a quantitative element and a math boot camp at the beginning of your studies.

We use online tools and learning platforms such as Moodle, MyEconLab and MyMathLab. For your convenience, we also provide free eBooks for select modules.

Facilities

To support students studying Economics we have a dedicated building where all our staff and facilities are located, including an experimental lab. Computers and library resources for students are conveniently located a couple of minutes away, and our students also have access to a Bloomberg Terminal. In addition, undergraduate students have exclusive use of the Economics Hub, which can be used as both a social and study space.

**CUTTING-EDGE RESOURCES
INCLUDING EXPRESS LAB AND
BLOOMBERG FINANCIAL DATABASE**

Our state-of-the-art library, housed in the Davison Building, close to the Department of Economics.

Student life

Getting involved

We seek to give you a number of opportunities to take part in activities outside of your studies.

- Social events: Throughout the year, we hold several events exclusively for Economics students, including the Autumn Ball, Spring Social and Summer BBQ. These events provide an excellent opportunity to socialise with your fellow students and academics in a relaxed environment.
- RHUL Economics Society: This student led society holds regular economics themed debates, talks and events such as movie nights and social outings.
- RHUL Investment & Finance Society: For students interested in pursuing a career in finance beyond graduation, this society regularly run workshops, talks and careers-based events for members.
- Peer Guide scheme: We participate in the college-wide Peer Guide scheme every year, a scheme where current 2nd and 3rd year Economics students act as mentors for new students. Peer Guides are there for non-academic issues, support and guidance, and for sharing experiences.
- Volunteering: Volunteering is one of the best extra-curricular activities you can take part in at University, whether you want to develop your own skills, try out future career paths, meet likeminded people or make a genuine difference in the local community.

Founder's Reading Room

Your future career

We focus on the real-world application of critical thinking so that you are prepared for the workplace on graduation. With 93% of our graduates in full-time employment or further study within six months of graduation, our employability programmes are engineered to get your career off to the best possible start.

Economics@Work

Economics@Work is a series of employability workshops, events and guest speaker talks about jobs in economics with:

- Practitioner insights
- Case studies
- Careers advice
- Contacts and networking opportunities
- Q&A

Employability modules

The aim of these modules is to enhance your employability skills by helping you understand how to:

- build an attractive CV during your studies
- secure and succeed in work experience and internships
- make successful applications
- perform well in interviews
- find a graduate job or further study programme that is right for you

EMPLOYABILITY LECTURES
CV WRITING WORKSHOPS
ECONOMICS@WORK
CAREERS PROGRAMME

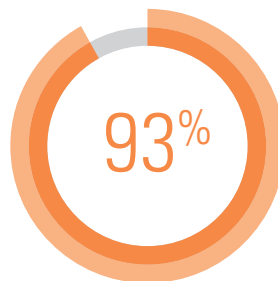

We work with the College's dedicated Careers Service to enhance our students' employability and prepare them for the choices ahead.
