Repaying your loan
Once you have graduated from university, you will need to start repaying your loan once you earn over the repayment threshold. This is currently £511 a week or £2,214 a month (before tax and other deductions). The threshold changes on 6 April every year. You pay back 9% of anything you earn over the threshold. Any outstanding balance is written off 30 years after the first payment is made. The repayments will usually be made automatically through the UK tax system, and interest tied to inflation is charged on the balance until it is repaid.
