5. MATTERS ARISING
There were no matters arising.

6. UN-STARRING OF ITEMS
No items were unstarred. However, for reasons of transparency attention was brought to the starred item concerning remuneration of the Chair.

MAJOR BUSINESS

7. THE ANNUAL REPORT FROM THE STUDENTS’ UNION
A presentation was given by the Student Union representatives focussing on:
The impact of the pandemic on trading operations; the increase in satisfaction of online learning; the Digital Education report; the Joint Hons insight report; the Student Housing report; the review of academic societies.

Over 700 events were organised throughout the year with the whole community getting involved.

Future plans:
Financial recovery; reopening of services and activities; engagement of 1st years and re-engagement of 2nd years; focus on quality & standards across the board; EDI strategy; CEO recruitment; updated memorandum of cooperation with the college

Discussed whether sexual harassment is a big problem and that the launch of RH BeHeard has given students a place to go to record their experiences, concerns and complaints. The platform means that the students will receive a sensitive and quick response.

Discussed that students are keen to return to face-to-face teaching. However, the students with a disability find that distance learning is a good solution for them.

SU to return to a later meeting to give an update on digital learning

Discussed how students seamlessly transitioned into a new way of learning and, as a result their resilience and ability to cope with change has developed.

Discussed that the Memorandum of Co-operation needs to be revised in 2022 and should retain a degree of flexibility so that the SU can adapt to the changing needs and demographic of students.

8. PRINCIPAL’S UPDATE

8.1 Principal’s report
At the start of the academic year there was a good number of international students who had arrived on campus including a significant number from India, although it was noticeable that there were fewer students from China attending on campus, preferring a remote learning option.

The development of freedom of speech legislation was noted and that the Memorandum of Cooperation with the SU will need to be updated in due course, to reflect changes to the external speaker policy as it aligns to the legislation.
Following developments in the USS 2020 pension valuation, the significant planned increase in employer and employee contributions will not be required, being replaced by proposed scheme reform and a more modest increase.

The academic staffing exercise is now complete.

In the newspaper league tables, creative writing was top in the country but the College took a hit in the NSS due to the small population of students on campus.

The international world rankings should be directed to the SER committee in the first instance and then from SER to Council.

REF results are expected in April 2022.

RH BeHeard has been successfully introduced to provide an efficient process to report sexual misconduct and racial harassment on campus.

The College will ensure that harassment continues to receive a focus.

**8.2 Update on student recruitment for 2021/22**

The College has not met its plan for undergraduate student numbers by 200-300 although the immediate impact on the resource plan is not damaging.

Concern was expressed that we will not be able to take advantage of the short-term demographic increase in young people to grow our undergraduate student numbers as planned.

The College converted the same number of students as it did in August 2020 but the number coming through clearing was down. Nationally the number of students in clearing reduced.

The risk we encounter is our reliance on clearing and there are several initiatives happening in 2022 to attract an additional 400 students, for example, the extension of the Foundation year programme, further capacity in psychology. Our challenge is to grow the number of students who make RHUL their first choice.

There is a concern that we are losing PGT applicants as the College does not react in a timely manner to processing applications.

The financial implications of the student numbers are not yet clear as it will depend on the final mix between home and international students.

The College marketing campaign has been refreshed for 2022/23 with a new UG advertising campaign.

David Ashton and Sarah King to take discussion re the marketing campaign offline. Council will address recruitment and marketing in greater depth when we consider the Boston Consulting Group report and recommendations at the Strategy Day in November.

There are several mitigations that will help us to balance the budget this year.

Discussed that student applications grow year on year yet our conversion rate of 20% remains the same. The College need to do more to improve the conversion rate although we are on a par with our competitors.

**9. COLLEGE STRATEGY**

**9.1 Environmental Sustainability Strategy**

Discussed that the strategy feels like a first attempt and is not ambitious enough. The financial data is necessary to determine costs.
Discussed that the strategy shows real progress and that there has obviously been a large amount of work done so far. Also that the strategy needs to link with the overall strategic vision for the College and be embedded in the culture of the College. Agreed that the strategy is an improvement from where we are currently.

A group to be formed of Ian Wilson, Sarah King, Donna Brown and Chris Shoukry to revisit the strategy and return to Council with a more ambitious but pragmatic strategy that is capable of implementation.

9.2 Proposed merger with St Georges

A paper was circulated to bring members up to speed with the current state of play.

Discussed the importance of members contacting Dame Margaret Hodge, Paul Layzell or David Ashton with any comments, concerns or feedback.

Discussed that the decision process re the merger is important and that at the same time we cannot stop business as usual, we must remain focussed on implementing our agreed strategy and its objectives. There are many areas to be scrutinised and we need to understand the St George’s business model. The merger needs to be financially sound.

Discussed the reason for hiring up to four different consultancies to support the decision making process: one for project support; one for finance due diligence and business case due diligence; one for legal advice.

To discuss go-no go criteria at S&G meeting

Discussed the reasons for the pace of the decision making process. Initially the decision is whether to give the merger the green light, the structure can be established later.

10. FINANCE

The Finance committee received the provisional results at their last meeting.

11. GOVERNANCE

11.1 Council effectiveness review

Paper accepted.

11.2 Founder’s Endowment Fund (FEF)

Agreed that FEF will not continue to operate in the format which it has done so until now. The funds are wholly owned and controlled by the College and as such are fully consolidated in the accounts.
