Top tips for your Open Day visit

Open Days are the best way to get a feel for life at university. You’ll get to meet current students and teaching staff, and find out more about both studying and living at Royal Holloway. Interactive and fun, you’ll attend talks, tours and more on your subject of interest.

1. **Plan your day**
   Take a look at the programme before arriving to find out when and where things are happening.

2. **Attend a wide range of talks**
   We have academic department and general talks running all day, giving you information about your chosen course and the support we offer as well as a chance to hear from the principal. Talks are repeated morning and afternoon so you’ll be able to attend as many as possible.

3. **Go to the subject zones**
   You’ll get to talk to a leading academic in your field of interest and ask any questions you may have about your course.

4. **Meet current students**
   Have a chat with our current students and find out more about your course, clubs and societies, accommodation, and anything else that you may like to know about university life.

5. **Go on a student led tour**
   Our student ambassadors will show you around our beautiful campus, so you can see where you may live and what the facilities are like.

6. **Visit accommodation**
   You’ll get to tour some of the accommodation and speak to students living on campus to see what options may suit your needs.

7. **Try out interactive sessions**
   Get involved in any interactive sessions that are offered in specific departments, such as robotics demonstrations and laboratory exercises.

8. **Enjoy a break**
   Take time for a break and have something to eat or drink at one of our cafés.

9. **Take notes or pick up any guides**
   Pick up any handy guides or take notes of anything that you are interested in and visit our website for more information.

10. **Check out our digital prospectus**
    If you haven’t already, view our digital prospectus if you have any questions after your visit royalholloway.ac.uk/ug-prospectus
