

**DIGITAL  
ORGANISATION  
AND SOCIETY**  
Research Centre

The DOS Research Centre aims to encourage a critical appreciation of the implications of digital technologies for work, organisation and society through interdisciplinary research leading to responsible impact.

## RESEARCH CLUSTERS

### **Digital Technology, Organisation and Work**

Digital connectivity at work; new meanings, forms and places of work and collaboration; virtual communities and virtual organisation; AI and work; digital labour in a platform economy

*Cluster Leads: Prof Niki Panteli and Prof Gillian Symon*

### **Digital Economy and Innovation**

Digital innovation for a sustainable economy; business and social values of digital platforms; open innovation; big data and business intelligence; digital consumption; open development; digital public services

*Cluster Leads: Dr Tom Wainwright and Dr Philip Wu*

### **Digital Inequality, Ethics and Cyberactivism**

Social inequality in digital societies; ICT4D; online social movements; digital privacy and surveillance; technology ethics; inclusive and responsible innovation; gender and intersectionality in the digital age

*Cluster Leads: Dr Stephanos Anastasiadis and Dr Yingqin Zheng*

The Centre also provides a forum for the exploration and integration of existing and emerging **digital research methods**.

## RESEARCH PARTNERSHIP

Copenhagen Business School
