BA (Hons) Liberal Arts
NEW for 2015 entry

Multifaceted, diverse and adaptable graduates are increasingly sought by employers looking for people able to respond quickly and effectively to shifting business needs and market conditions. Liberal Arts is an internationally-recognised approach to study that will prepare you for life in our rapidly changing world. With an emphasis on teamwork alongside individual development, our rigorous and intensive programme will equip you with skills of critical thinking, creativity and adaptability, through your study of a wider range of areas than is usually possible in a Single or Joint Honours degree.
Rarely available in the UK, Royal Holloway is one of just a handful of universities in this country to offer this highly-prized degree, ideal for students who are creative and inquisitive with a wide range of interests.

Liberal Arts at Royal Holloway is:

**Truly interdisciplinary:** explore a wide range of areas across the Arts, Humanities and Social Sciences, with far more choice than is usually available.

**International in focus:** you will study a Modern European language, whether you’re starting from scratch or from a more advanced level, and you can develop your global perspective by spending a year at one of our many overseas partner universities.

**Rigorous and intensive:** you’ll spend regular time working closely with leading experts in small groups of your peers.

**Teamwork-focused:** you’ll take a core course designed to specifically develop this valuable skill, critical in the modern workplace.

**Individual:** you have the ability to design your own programme as your degree progresses.

**Well-supported:** fortnightly small group tutorials with a Personal Tutor in your first year will equip you with the skills you need to transition into university study.

**Employable:** as well as developing adaptability and flexibility, boost your skills by applying for work placements and taking advantage of the fantastic careers support Royal Holloway offers.

**Entry requirements:** A-levels AAB-ABB or equivalent
