

Factsheet on using Thermostatic Radiator Valves

On many radiators there is a thermostatic radiator valve (TRV) as shown in Figure 1 below.

Figure 1 radiator valves

You can use the TRV to control the temperature in your room (see Figure 2 below).

Figure 2 using a TRV

If you use your TRV, this can help us to save energy and reduce our carbon footprint. If you have any problems or faults you please phone extension 3062 (01784 443 062) or email, FMCustomerServices-NonRes@rhul.ac.uk.
