

Community Action Project Thames21 Volunteers

Community
Action

Community Action Partner Thames21

Aim:

Thames21 works hand-in-hand with local communities to improve and maintain London's waterways. Their aim is to engage people of all ages, abilities and from all parts of society in order to improve rivers and canals for people and wildlife.

Roles:

The volunteers help to create a clean environment for London waterways by removing litter, creating new habitats for wildlife, flora and fauna, removing non-native invasive species, removing graffiti, campaigning for the reduction of waterway pollution and promoting sustainable behaviour.

Training: There is no need of training.

Location: London

Times: Monthly scheduled events

DBS: A DBS check is not required for this role.

Other: Some sites can prevent wheel chair access and therefore are not suitable. However there are many other events to accommodate this.

All project volunteers must be registered as Community Action Volunteers.
