

Community Action Project

Save the Children Speaking Out Campaign

Community Action Partner

Save the Children UK

Aim: Speaking Out about saving children's lives! It's an outrage that millions of children are still denied access to proper healthcare, education, adequate food and protection. You can help change this by becoming a volunteer speaker "Speaking Out" for Save the Children. Whether it is to child or adult audiences, you'll be speaking about the fantastic work we're doing to improve the lives of millions of children around the world. Join us in helping to save children's lives!

Role: We would be asking the Speaker to help us with the following:

- Prepare and provide talks on Save the Children at events around London
- Encourage audiences to support Save the Children in ways that are appropriate to them
- Be familiar with our Speaker resource materials, using the internet to access up-to-date information and reaching out to support team as needed
- Respond to requests for talks and be willing to attend updating/training sessions
- Maintain contact with your local Speaking Out leader & Speaking Out support team updating them on the outcomes of your talks, audience preferences etc

You will be part of a lively, inspirational network of individuals who give up their time to Save the Children and who constantly inspire others to support our life saving work.

Times: Flexible but we encourage speakers to undertake as many talks as they feel able to do, aiming for on average 1 talk per month

CRB: No CRB disclosure is required.
